

MASTER OF AUDIOLOGY

SCHOOL OF MEDICINE FACULTY OF MEDICINE, DENTISTRY AND HEALTH SCIENCES

The degree of Master of Audiology is a research higher degree designed to enable clinical audiologists to upgrade their knowledge and skills in the field of audiology through undertaking a research degree at Masters level.

Application Procedure: Prospective candidates should consult with the Research Coordinator, Department of Otolaryngology to discuss their research proposal prior to submitting an application. Information regarding research within the Department of Otolaryngology is available from the Department's home page:

<http://www.medoto.unimelb.edu.au/oto/resareas.html>

When the research proposal has been developed to a sufficient degree, and a potential supervisor has been approached and agreed in principal to supervision, applicants should submit to the Faculty, through the School of Medicine, an application for admission to the course. The application form for local candidates is available from this website:

<http://www.medicine.unimelb.edu.au/docs/MAudResearchApplicForm.pdf>

The application should set out the topic of the research, arrangements for supervision, whether the candidate will be full or part-time, and contain a statement that adequate facilities and resources are available. Applicants who are not graduates of The University of Melbourne should also attach original or certified documentary evidence of their qualifications. All applicants must provide proof of citizenship. International students should submit an application, research proposal and supporting documentation using the University's official International Student Application form. This is available, along with information about English requirements, fees, etc from the University's website:

<http://www.futurestudents.unimelb.edu.au/int/ipg/ipgapply.html>

Research Coordinator: Prof. Richard Dowell, Head, Department of Otolaryngology
Email: rcd@unimelb.edu.au

Fees: (Subject to change on an annual basis)

Full or part-time local students: [Research Training Scheme](#).

International students: Please refer to the University's Admissions Website for detailed information on fees and how they are calculated:

<http://www.futurestudents.unimelb.edu.au/courses/fees.html>

Duration: One year full-time or two years part-time.

Admission Requirements: Candidates for Master of Audiology must have completed the Graduate Diploma in Audiology (or an equivalent qualification) with the consent of the Faculty.

Course Details: An approved program of not less than one year full-time research (or equivalent part-time) on a specific aspect of the discipline will be undertaken by candidates.

Assessment: The thesis for the degree of Master of Audiology will ordinarily represent the equivalent of not less than one year full-time research and, except with the special permission of the Standing Committee on Graduate Studies of the Faculty, is to be submitted not later than 12 months following completion of the research. The thesis should normally be 40,000 words in length excluding tables, illustrations and bibliography.

The thesis should contain a preface stating the extent to which the candidate is reporting work to which others have contributed. A candidate may not present in the thesis work for which a degree has been conferred at this or another university.

Where it is appropriate, an applicant for enrolment as a higher degree candidate or an applicant submitting a thesis for examination must submit evidence to the satisfaction of the Faculty that all ethical requirements associated with the research have been approved by the appropriate body of the institution or institutions involved.
